Project Report and Presentation

Report Due: 11:59pm November 30th
Presentations: During class November 26th

Presentation
Presentations will occur in-class on Nov 26th, and will be **8-minutes** per group, with an additional **2-minutes** for questions. Please make sure to have your presentation within the time limit, as we have many groups to go through.
Please send your slides to dkohlbre@berkeley.edu before 10am on the 26th, that way we don't have to do laptop swaps. Acceptable formats include PDF or shared google slides. PPTXs will be imported to google slides, so may not render as expected.

Your presentation should cover:
Motivation
Approach
Results
with a focus on the results.

Report
Project reports should be equivalent to a workshop or full-length academic conference paper.
The papers assigned in the course are good examples to look at!
We expect that reports will be 6+ pages.
Reports should cover the same types of material as the progress reports. Instead of a timeline you may include a future work section.

Reports should be submitted to: dkohlbre@berkeley.edu and krste@berkeley.edu by 11:59pm Nov. 30th.

Your report should include (not necessarily in this order):

1. **Heading**
   a. Project title
   b. Names of students in group, year at UC Berkeley, email address, and student IDs
   c. Project type (literature review, replication project, implementation project, research project)
2. **Background**
   a. This should include relevant material needed to understand why your project is meaningful
   b. You should make sure to cover any relevant material not covered in the course.
3. **Related Work and Comparisons**
   a. This should include all material from your progress report at the least.
4. **Problem Definition and Motivation**
5. **Methods & Approach**

      a. Detail your approach.

      b. What was the design of your project, what did it do?

6. Results & Evaluation

      a. The amount of results and content of the evaluation will depend on your project

      b. This should be the bulk of your new material, and is the core of your contribution

7. Future Work

      a. This should contain both incomplete objectives, as well as new ideas.

8. Conclusion
